Details

: As per the inputs obtained from concerned technical team: The information gathered relates to data of year '2013'. The information gathered was for the ICSE, which results are not hosted on NICNET and from the 'NDTV' website (as per code snippets available in the published analysis). The information was gathered post the results declaration and through a process of scraping of data publically available and not through any process of hacking or unauthorized access to data. However, as a precautionary step, process has been initiated for putting CBSE results website under the fresh cyber security audit.
